Summary

Aspiring Software Developer with strong skills in React Native and Android Studio, and a solid foundation in Java, JavaScript, and basic Python. Strong understanding of Data Structures and Algorithms (DSA) with a passion for building mobile applications and solving real-world problems through efficient, scalable code. Quick learner with a problem-solving mindset and a keen interest in full-stack development.

EDUCATION

Bachelor of Computer Applications (Ongoing) The ICFAI University

Graduation: 2026

Class XII (Senior Secondary) Maa Saraswati Public School

Completed: 2022

SKILLS

Technical Skills: React Native, JavaScript, Java, Android Studio, Node.js, Express.js, MongoDB, Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP).

Soft Skills: Adaptability, Team Collaboration, Problem-Solving, Willingness to Learn

PROJECTS

RoomieFind App

GitHub: <https://github.com/Suraj88658917/RoomieFindApp>

- Developed a cross-platform mobile app to help students find hostels, flats (1BHK, 2BHK), rooms, and roommates based on filters like budget, gender, and personal preferences
- Implemented an advanced filter-based search with real-time listings using React Native and REST APIs
- Enabled users to personalize their roommate search by setting preferences such as budget, gender, lifestyle, and location
- Designed a flexible roommate matching feature that gives users full control over whom they connect with

AI-Chat App

GitHub: <https://github.com/Suraj88658917/AIChat-App>

- Developed an AI-powered mobile chat application enabling real-time user conversations with an intelligent chatbot.
- Implemented secure authentication using JWT for safe user login, registration, and session management.
- Integrated REST APIs to handle message storage, retrieval, and live interaction between users and the AI.
- Designed an intuitive and user-friendly chat UI with smooth navigation for a seamless messaging experience.

Amore - A Dating App

GitHub: <https://github.com/Suraj88658917/Dating-App>

- Developed a full-stack mobile application to connect people and simplify online dating experiences.
- Built a smart matchmaking platform featuring user profiles, swipe-based matching, chat functionality, and secure authentication.
- Integrated REST APIs for real-time chat, profile management, and matchmaking algorithms.
- Designed a modern and user-friendly interface with smooth navigation for an engaging dating experience.

Portfolio App

GitHub: <https://github.com/Suraj88658917/Portfolio>

- Developed a mobile and web portfolio application to showcase personal projects, skills, and achievements in an interactive way.
- Built a full-stack app featuring project galleries, resume download, contact form, and secure login for admin updates.
